EXPERIENCE & LEADERSHIP

Front End Developer • Lifeblue

Feb 2021 - Present

I develop intuitive, user-focused experiences. I embrace cross-team-collaboration to create the best possible product for our users and clients alike. I enjoy wearing many hats and always challenge myself to learn best practices whether that is in code organization, implementation, accessibility, or beyond. I work with many front end frameworks including HTML5, LESS, SCSS, JavaScript and PHP.

UX Research & Design • Tech4Good Lab

Jan 2020 - Jan 2021

As a UX designer, I wireframed, prototyped, and designed a scheduling app for our research lab primarily using Figma. As a researcher I conducted user and market research, ran usability tests, and qualitatively analyzed user experience data. I have experience with survey design and user interviews both remote and in person. I also co-wrote a research paper alongside my lab mentors.

Educator • Punahou School

June 2016 - Aug 2018

I created lesson plans and co-taught classrooms of ~25 high school students during winter and summer breaks from College. Courses included an Intro to Feminisms course (grades 9-12) and Intro to Social Sciences (grade 9).

Photographer • Freelance

December 2016 - Present

Photography is a love turned side hustle. Some of my publishers and collaborators include Vogue, Rookie Mag, Hara the Label, Jonesy NY, and Mejuri.

EDUCATION

Computer Science, B.A. Cum Laude

University of California, Santa Cruz
Graduated December 2020

Computer Science Visiting Student

University of California, Berkeley
Sept. 2018 - May 2019

Womens, Gender & Sexuality Studies

Barnard College, Columbia University
Sept. 2016 - May 2018

RELEVANT COURSEWORK

Designing Interactive Media
Web Applications
Web Design
Database Systems

SKILLS

SOFTWARE	DESIGN
HTML5	Figma
LESS/SCSS	Invision
JavaScript	Needfinding
PHP	User Research
WordPress	Rapid Iteration
SQL	Wireframing
Java	Prototyping
Python	Survey Design
C/C++	User Interviews
